From our FroGrip® hand protection line, Arctic Tuff™ A2 and Arctic-Z™ A4 cut ratings are insulated for cold temperature working environments. With latex or nitrile coatings, these water repellent gloves come with insulated seamless knit shells to prevent cold stress. The insulation works by reflecting trapped air back in to the body which radiates heat for protect from cold temperatures and frostbites. These winter work gloves are applicable in cold storage, commercial warehouse, commercial fishing and more. Arctic Tuff™ and Arctic-Z™ offers a variety of styles so you can find the best winter work gloves for your job.
