TECHNICAL DATA

Gauge	13
Coating	Air-Urea™
Coating Color	Black
Coating Coverage	Palm & Fingers
Shell Color	Navy
Liner Material	Aramid, Polyester
Cuff	Elastic Knit Wrist
Sizes Available	M, L, XL, XXL
Features	TouchFLX™ Touchscreen Compatible*
Packaging	120 pairs/case
Packed	12 pairs/sleeve
Country of Origin	South Korea

Product Description

The ECODEX 700B Welding and Grinding Gloves are designed to offer protection in welding, grinding, and metal cutting applications. These gloves won't ignite, melt, or burn from incidental contact with sparks or flames. The ergonomic fit ensures excellent dexterity, allowing workers to handle small parts like welding rods, torches, grinders, and cutting tools with ease.

**Disclaimer: TouchFLX™ technology activates touchscreen compatibility through thermal body temperature during extended wear while maintaining carbon neutrality.*

Eco-Friendly Coating

- 70% water-based
- No toxic solvents
- DMF, Butadiene, Carcinogen, Odor Free

Eco-Friendly Manufacturing Process

- NO industrial wastewater
- NO wash process to remove chemicals

Air-Urea Technology Key Differences

- Exceptional cushioning, enhanced ventilation, reduced hand fatigue
- Excellent water resistance & durability
- Feather-like soft feel and comfort

PERFORMANCE DATA

ANSI Cut Rating	A3
ANSI Abrasion Level	3
ANSI Puncture Level	5
EN 407 Contact Heat Level	2
EN 388 Rating	3X44B
